GRASS-FINISHED BEEF

Felicity Farm cattle are raised in a low-stress environment on pasture their entire lives, and are fed only fresh grass in the summertime and locally grown hay through the winter. They never receive any antibiotics or artificial growth hormones. Their diet contains all the vitamins, minerals and fresh water they need for a healthy and happy life.

Our beef is available in three quantity options: as a half (also known as a “side of beef”) or as a mixed quarter (that’s half of a half – and is an equal mix of cuts from the front and hind) or a 20 lb variety pack. Half and mixed quarter price is based on the hanging carcass weight (approximately 300-350 lbs for a half, and 150-175 lbs for a quarter). Prices include cutting, wrapping and freezing. Expect a yield of 60-70% retail cuts from the hanging carcass weight, depending on cutting instructions.

A 20 lb variety pack includes a mix of steaks, roast, hamburger, stew, etc.

Half: \$5.25 / lb _____

Mixed Quarter: \$5.65 / lb _____

20 lb Variety Pack: \$195 _____

20 lb Lean Hamburger: \$130 _____
