### HERITAGE BREED PASTURED PORK

Felicity Farm hogs are raised in a low-stress environment on pasture and are fed a mixture of locally grown grains. They never receive any antibiotics or artificial growth hormones. Their diet contains all the vitamins and minerals and fresh water they need for a healthy and happy life. Old-fashioned heritage breeds produce a full-flavoured and tender pork that you will surely enjoy.

Whole and Half order price is based on the hanging carcass weight (approximately 140-180 lbs for a whole, 70-90 lbs for a half). Price includes curing, cutting, wrapping and freezing. Expect a yield of 60-70% retail cuts from the hanging carcass weight, depending on cutting instructions.

A 20 lb variety pack includes a mix of chops, roast, bacon, ribs, fresh sausage and ham.
